**Evolution Markets to Host 2nd Renewable Energy Certificate Auction for the
County of Monmouth, New Jersey**

-- Sale of More Than 6,040 New Jersey RECs --

White Plains, NY (July 14, 2010): Evolution Markets Inc. announces today it will conduct an auction of Renewable Energy Certificates (RECs) on behalf of the County of Monmouth, New Jersey. In the auction slated for July 27, 2010, Monmouth County plans to offer reporting year 2010 New Jersey Class I Renewable Certificates. This is the County's second auction of RECs, which are generated by the operation of its landfill gas-to-energy facility.

"The auction by Monmouth County comes at a time when compliance buyers are actively purchasing NJ RECs to fulfill their upcoming obligations," said Andrew Kolchins, Managing Director, Renewable Energy Markets. "We are glad to assist Monmouth County in monetizing their Renewable Energy Credits in an open, transparent and competitive process through the EvoAuctions™ online auction platform."

The Monmouth County auction will offer for sale 6,048 New Jersey Class I Renewable Certificates produced from June 01, 2009 to May 31, 2010 by the 1 MW County of Monmouth landfill gas-to-energy facility located in Tinton Falls, NJ. These credits have been approved by the New Jersey Board of Public Utilities as an eligible source under the New Jersey Renewable Portfolio Standard, as well as certifiable under the Green-e national standard. These RECs will be sold in one lot of 6,048 RECs.

"The County is not only generating power for its own use, but it is also generating Renewable Energy Certificates from a renewable energy source that can benefit other power generators," Monmouth County Freeholder Director Lillian G. Burry said. "This is a prime example of the County's commitment to help with "green" initiatives and save more taxpayer dollars by auctioning these credits."

The Monmouth County auction will use Evolution Markets' proprietary online auction platform, EvoAuctions™. Participants in the auction may submit bids using an on-screen bidding platform administered by Evolution Markets, in addition to submitting bids via telephone. The secure platform allows market participants to register for the auction in advance, post and view real-time bids during the open bidding process, and submit a final sealed bid during the last phase of the auction.

EVOLUTION MARKETS

Interested market participants may register with Evolution Markets by emailing Andrew Kolchins at: akolchins@evomarkets.com. Qualified bidders will be provided a login ID and password, and they will be able to post bids beginning at 10:00 am ET on the day of the auction. All bids will remain anonymous to the market. Qualified bidders will be able to view all bids posted until the end of the open bidding period at 11:45 pm ET on the auction day. Bidders that submitted bids during the open phase will then have until 12:00 Noon ET to submit their final sealed bid either online or by telephone. Final sealed bids will not be available for viewing. Participants wishing to submit bids via telephone will have their bids entered into the online system by Evolution Markets.

Bids must be binding until 5:00 p.m. ET on the day of the Auction. Once a bid has been accepted by Monmouth County, Evolution Markets will inform the successful bidder, issue a transaction confirmation, and then announce the auction results to the market.

An auction notice and REC Sales Agreement are available from Evolution Markets for bidders to consider. No exceptions or counter-proposals to the terms of the REC purchase and sale contract will be considered, and no post-bid acceptance contract negotiations are permitted.
